Subject: Appreciation for External Evaluation Services by CUP Pakistan

Dear Mr. Iftikhar Ur Rahman,

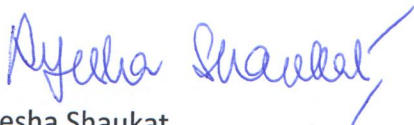

Subsequent to a competitive bidding process, the Community Uplift Program (CUP) Pakistan was awarded the contract by ICMC Pakistan for the external evaluation of its Humanitarian Response Project; "Promotion of Access to Services & Protection for Vulnerable People of Northern Pakistan" on 15 Nov 2011. We at ICMC Pakistan have been deeply impressed by the participatory process that CUP Pakistan adopted throughout the external evaluation process with all stakeholders including our implementing partners.

We also acknowledge your professional expertise in designing the evaluation and astute leadership of the evaluation process that took into account all observations and comments of those involved in the project implementation. This resulted in a very balanced end project evaluation report in Jan 2012 that also contains specific and actionable recommendations for such like future livelihoods restoration and disaster preparedness/risk mitigation interventions.

I would also like to request you to extend my gratitude and appreciation to your field teams who carried out the data collection in challenging conditions through a set of accurate measurement approaches & tools.

We look forward to working with CUP Pakistan in future assignments as well.

Best Regards

Ayesha Shaukat  
Country Director
